Early Childhood Education & Development Programs For Children Birth—School Age

Playgroup

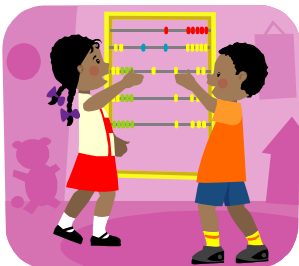

Our Playgroup is Inclusive of all Children, Parents and Caregivers, providing an opportunity to interact with others within our Local areas. Playgroups provide opportunities for children's social, emotional, physical and intellectual development while also allowing parents and caregivers to meet people with children the same age and share similar experiences.

What Children get from Playgroup

Playgroup aged children are going through a stage of rapid brain and skill development.

At playgroup children can:

- Develop their skills of cooperation through music, group singing, free play and snack time.
- Develop verbal and non verbal communication skills through their contact with other children and adults.
- Develop fine and gross motor skills
- Gain better body control, hand to eye coordination, spatial awareness and balance when they play with balls, sand blocks, puzzles, play dough, paint and paste
- Discover shape, size, texture, quantity and consistency when they play with play dough and learn to recognize colours, develop fine motor skills and express emotions by experimenting with paint, collage, chalk, crayons and stamps.
- Extend their experience of literacy in a social environment.
