

Provide an Emergency First Aid response in an Education and Care Setting (HLTAID004)

Assessments

Assessment 1

Written Assessment

Assessment 2

Observation of Practical skills

Description

This unit of competency develops the skills and knowledge required to provide first aid response, to infants, children and adults.

The unit applies to educators and support staff working within an education and care setting who are required to respond to a first aid emergency, including asthmatic and anaphylactic emergencies.

Duration

This course is delivered through blended learning comprising a self-paced on-line theory session and a face-to-face practical session. The session comprises reading on-line and completing quizzes. At the completion of the session students must print their completion certificate and bring it along to their practical session. The practical session runs for approximately 5 hours and will be held at Narre Warren Community Learning Centre.

Delivery Modes

Face to Face (training room/workplace)

Blended (online and face to face)

Entry Requirements and Pre-requisites

There is no vocational experience or prior qualifications required to enter this course.

Clients must possess basic Language Literacy and Numeracy Skills.

Training Pathway
